

# WAYSKIN HOME

## Manual

## WAYSKIN HOME - Your Personal Skin Therapist

WAYSKIN HOME offers LED color therapy for your unique skin by using application interworking and the Wayskin app to analyse big data of your skin/environment, and it helps your skin improve effectively with micro-electricity to vitalize your skin's energy.

### Effects of LED color therapy for each color

### Use it like this

1. Use LED Color Therapy after pasting the WAYSKIN SOOTHING CREAM or Moisturizing Product. (It's okay to use one product only if it is more convenient for you.)

2. Check the changes to your skin through the skin measurement before/after care.

### Caution

1. Avoid looking directly at the LED light.

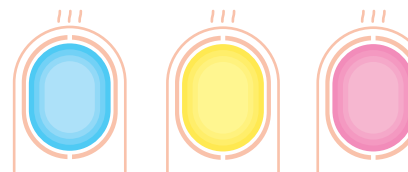

Direct visual exposure to the LED light may cause side effects such as loss of vision.

2. You could feel a slight stinging while undergoing LED care because of the micro-electricity.

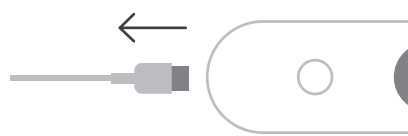

Stinging stimulus is natural due to the micro-electricity. If it starts to feel like too much, try using it after applying a SOOTHING CREAM.

3. The care part of the device could become hotter during the LED care.

Don't worry. The heat creates a good effect in the vitalization of your skin cells.

4. The skin measurement is not working during charging.

Please use the skin measurement after releasing the charger.

## How to use WAYSKIN HOME

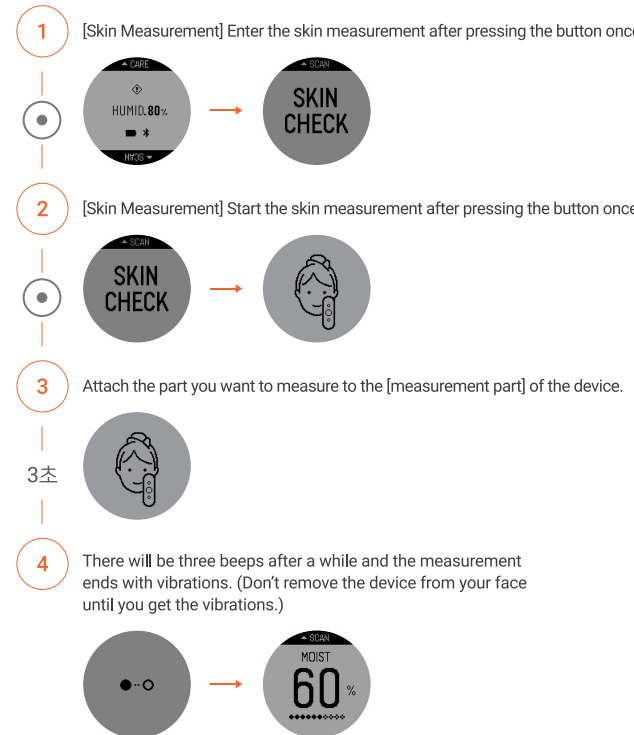

### Power

1. Turn on the power

- 1) Press the [Care Button] or [Measurement Button] for two seconds.
- 2) If it does not turn on, please charge the device and try again.

### Skin Measurement

1. Check the Skin

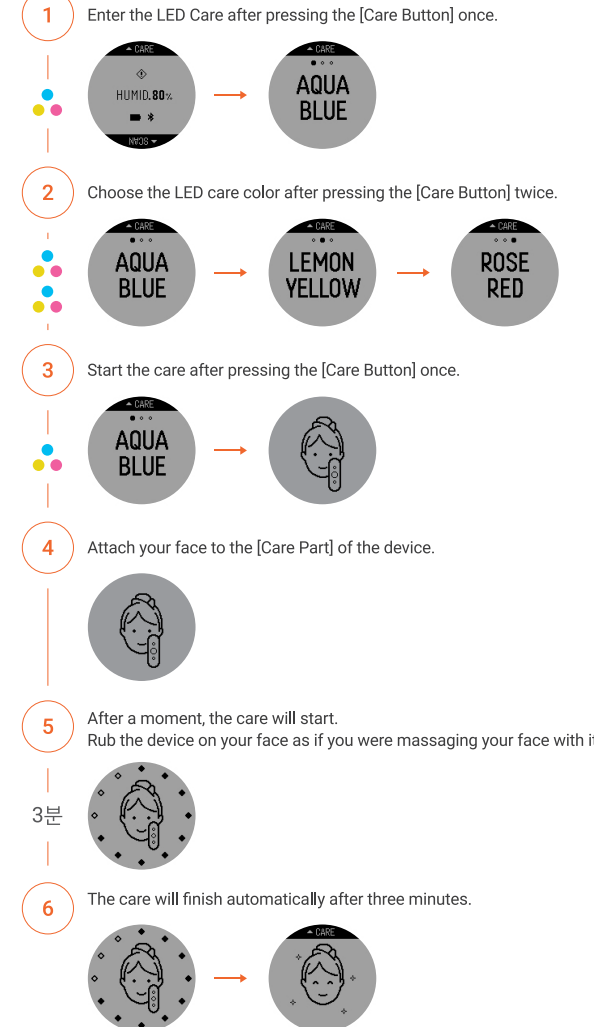

2. Finish the skin measurement

End the skin measurement after pressing the [Measurement Button] for two seconds.

### LED Color Therapy

1. Start the care

2. Finish the Care

Finish the care by pressing the [Care Button] for two seconds.

3. Pause and restart

- 1) While undergoing care, press the [Care Button] once to change the pause status.
- 2) If you press the [Care Button] once again, the care will resume.

### Mobile Connection

1. Connect the device to your mobile device.

- 1) Search for Wayskin in the Apple app store or Google Playstore and download the application.
- 2) Press the home icon of Wayskin and enter the [WAYSKIN HOME] screen.
- 3) Press the [Connection] button and connect the device.
- 4) In some cases, the connection may fail
  - When the distance between the device and the mobile device is too great.
  - When the device is turned off or battery power is insufficient.
  - When Bluetooth has not been enabled.

2. Using the device while the mobile device is connected

While your mobile device is connected to the device, you can use every function of WAYSKIN HOME through the inside buttons of the mobile device and device buttons.

### ETC

1. Reset

When the screen or buttons of the device are not working, use a small, thin object like a paperclip to push the [RESET] button to reset the device.

2. Turning OFF (long-term hibernation)

- 1) Press the [Care Button] and [Measurement Button] of device together for at least five seconds.
- 2) Battery power is not consumed at this stage. So it is recommended that you turn off the device for long periods of time.
